the real question is not whether aliens exist or not they exist rather we should ask ourselves how they are manipulating us and what we can do in order to defend ourselves these are the thoughts of a writer who has shared her personal experiences in three profound and intense books each volume is supplemented with illustrations and profiles of the most important alien races and in particular with pictures of real alien chips which the author has extracted from her own body it s a book that will blow you away and one that will make you recognize a truth mirrored in your own experience that which you never dared tell anyone in this trilogy the author shares her terrifying experience but also the experiences that filled her with joy it s the beginning of an evolution a howl of rebellion against alien abductions and manipulations a roar in the face of all those who allow this to happen
